BINGO

NON-DIGITAL VERSION, DIRECTIONS:

Thank you and welcome to my Music Bingo for Distance Learning, Non-Digital Version.

This Non-Digital version is for all students who may be at home right now with limited to no access to technology or other barriers to education. Whether you are sending packets home or students have other electronic barriers (such as sharing electronics with other siblings or working parents, limited access to technology), this music activity is made for you. In this version, you will receive K-12 Music Standards that will fit with this activity as well as a terms of use page and multiple different Bingo sheets for older learners and for younger learners broken up into grade bands. This can also be used for students with learning disabilities or developmental disabilities who are in older grades. Since your students are doing this remotely and at their own pace, they can all do the same sheet or a variety of the 5 sheets. They can either do all 5 activities in a row to get BINGO in one lesson or do it over a few lessons (it all depends on how much time you will be giving lessons during this unprecedented time). If you would like a variation of this resource or anything else, please reach out to me and I would be more than happy to create it for you. Thank you!

Musically,

Lauren from Makingmusicalspecialmoments
